Student name ________________________________

Write your objectives, the steps necessary to accomplish them, the method you will use to measure your progress, and the estimate of time to accomplish the objective.

Objective.1: By __________ I will ____________________________________________

__________________________________________________________________________

__________________________________________________________________________ — Estimate Hours

Steps To Accomplish Objective:

1. __________________________________________________________

2. __________________________________________________________

3. __________________________________________________________

Method of Measurement (how to report success to instructor)

__________________________________________________________________________

__________________________________________________________________________

Objective.2: By __________ I will ____________________________________________

__________________________________________________________________________

__________________________________________________________________________ —

Steps To accomplish objective:

1. __________________________________________________________

2. __________________________________________________________

3. __________________________________________________________
Method of Measurement (how to report success to instructor)

__________________________________________
__________________________________________

Objective.3: By _________ I will ____________________________

__________________________________________
__________________________________________

Steps To accomplish objective:
1. __________________________________________
2. __________________________________________
3. __________________________________________

Method of Measurement (how to report success to instructor)

__________________________________________
__________________________________________

Objective.4: By _________ I will ____________________________

__________________________________________

Steps To accomplish objective:
1. __________________________________________
2. __________________________________________
3. __________________________________________
Method of Measurement (how to report success to instructor)

Objective.5: By ________ I will ________________________________

__________________________________________________________

Estimate Hours

Steps To accomplish objective:
1. _______________________________________________________
2. _______________________________________________________
3. _______________________________________________________

Method of Measurement (how to report success to instructor)

Objective.6: By ________ I will ________________________________

__________________________________________________________

Estimate Hours

To Complete Objective

Steps To accomplish objective:
1. _______________________________________________________
2. _______________________________________________________
3. _______________________________________________________
Method of Measurement (how to report success to instructor)

We the undersigned, agree with the validity of the learning objectives listed. The employer and the University agree to provide the necessary supervision and counseling to ensure that the maximum educational benefit may be achieved for the Student-employee’s work experience. There are three participants in the cooperative Education venture. The student agrees to abide by the cooperative Education and employer guidelines. The supervisor will evaluate the student-employee’s performance objectives at the end of the grading period. Dixie State University will award academic credit for work successfully accomplished.
